IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

READ ALL INSTRUCTIONS BEFORE USING.
KEEP AWAY FROM WATER.

DANGER

As with most electrical appliances, electrical parts are electrically live even when the switch is off. To reduce the risk of electric shock:

■ Do not reach for an appliance that has fallen into water. Unplug it immediately.
■ Do not use while bathing or in the shower.
■ Do not place or drop into water or other liquid.
■ Do not place or store this appliance where it can fall or be pulled into a tub or sink.

WARNING

To reduce the risk of burns, fire, electric shock or injury to persons:

■ This appliance is for household use only.
■ An appliance should never be left unattended when it's plugged in.
■ Close supervision is necessary when this appliance is used by, on, or near children or persons with special needs or disabilities.
■ Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by manufacturer.
■ Keep the cord away from heated surfaces. Do not wrap the cord around the appliance.

■ Do not use or operate where aerosol (spray) products are being used, or where a fire is being administered.
■ Always unplug and cord is in a moisture-free area.
■ Do not plug in or unplug this appliance while your hands are wet.
■ Do not use in conjunction with any other household devices, such as an electric iron. An ALCI safety device is equipped with a test button so that its operation can be checked.

This unit should be tested before each use to confirm that the safety device is operational.

To test:
After plugging in your hair dryer:

1. Press the reset button on the ALCI device.
2. Press the test button. The reset button will pop out. This verifies that the safety device is operating properly.
3. Press the reset button to reactivate your ALCI safety device.
4. Your hair dryer is now ready for use.

Note:
This unit may automatically trip when unplugged. If so, it must be reset after it is plugged in. If the dryer doesn’t reset after following the above testing procedure, call 800-736-4844.

1. Should the ALCI safety device trip during use, press the reset button. Should the hair dryer fail to reset, call 800-736-4844. Never operate this appliance if it has been dropped in water.
2. This dryer is designed to work on ordinary household current only, 125 volts A.C., 60 Hz. It is not intended for commercial use.
3. This appliance is equipped with an automatic thermal limiter, which will cycle off when overheated and come back on when cooled down. If the unit cycles off, unplug the cord for several minutes before restarting.
4. This appliance has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

If you must use your hair dryer in the bathroom, install a GFCI now! Don’t wait... install one now! A GFCI can save your life!

A GFCI offers you greater protection. A regular fuse or circuit breaker won’t protect you under these circumstances. Even if the switch is “off,” plugged in, the electric shock can kill you— even if the switch is “off.”

Electricity and water don’t mix. If your hair dryer falls in water while it’s plugged in, the electric shock can kill you— even if the switch is “off.”

Cool Shot: The Cool Shot sets the style by blowing a cool stream of air. Press and hold Cool Shot button to set style. Release button to return to warm air flow. The air filter should be cleaned regularly, since a dirty or clogged filter will impair the efficiency of the dryer. To replace the air inlet after cleaning, align locking tabs and rotate clockwise to secure.

Cool Shot: The Cool Shot sets the style by blowing a cool stream of air. Press and hold Cool Shot button to set style. Release button to return to warm air flow.

Hair Care Tips
■ Apply the cool shot before, during, and after blow drying to set your style and help keep your hair’s natural moisture.
■ Use with authorized accessories sold separately. Use with unauthorized accessories voids warranty.
■ Do not wrap cord around dryer.

Cleaning Instructions
The air filter should be cleaned regularly, since a dirty or clogged filter will impair the efficiency of the dryer. To replace the air inlet after cleaning, align locking tabs and rotate clockwise to secure.

Maintenance Instructions
1. Use a soft bristle brush to gently remove any particles that are lodged in filter.
2. If the unit is dirty, wipe it with a damp cloth.
3. Use a soft bristle brush to gently remove any particles that are lodged in filter.
4. If the unit is dirty, wipe it with a damp cloth.
5. To replace the air inlet after cleaning, align locking tabs and rotate clockwise to secure.

Warranty
Spectrum Brands, Inc. warrants this product against any defects that are due to faulty material or workmanship for a two-year period from the original date of consumer purchase. Spectrum Brands, Inc. will reimburse all retailers who accept the product within 30 days from the date of purchase. If you have any questions concerning the money-back guarantee, please call 800-736-4648 in the U.S. or visit RemingtonProducts.com.
